

Specification Sheet

Description **Fuelchief PRAXIS™**

Product Features:

The Praxis is a single-skinned entry level tank that provides an effective solution for storing fuel and ensuring it is kept safe. It is customised and can be configured to cylindrical and rectangular designs based on its purpose.

- 🔴 **Compliant:** the tank meets AS1692
- 🔴 **Easy to install or relocate:** due to lightweight design (rectangular models)
- 🔴 **Durability:** painted in accordance with customer or on-site requirements up to 300 DFT (dry film thickness) 3 coat paint system.
- 🔴 **Ventilation method:** free to air vent connection 50nb socket
- 🔴 **Additional ports:** for piping to various jobs (3 spare connections - 50nb socket - provided)
- 🔴 **Fuel measurement:** calibrated anodized dip stick
- 🔴 **Varied sizes available:** multiple compartment tank configurations
- 🔴 **Storage options:** approved for diesel, light fuel oil and lubricants
- 🔴 **Earthquake resistant:** Integral pedestal supports provide seismic anchoring
- 🔴 **Robust design:** due to precision steel manufacturing process
- 🔴 **Made locally:** Praxis is manufactured in New Zealand
- 🔴 **Stable design:** comes with twin pedestals
- 🔴 **Earth Lug:** welded into tank design
- 🔴 **Dip point connection:** complete with dip tube and security cap
- 🔴 **Easy maintenance:** manway access hole (only on varied models)
- 🔴 **Warranty:** 5 year warranty

This warranty is only valid providing the tank is installed and maintained in accordance with the industry standards, including de-watering of the tank.
