

Specification Sheet

Description **Fuelchief VANGUARD™**

Product Features:

The Vanguard is double-skinned tank that provides 100% secondary containment. This range of tanks is an effective solution for storing fuel and ensuring it is kept safe. It is customised and can be configured to cylindrical and rectangular designs based on its purpose.

- ✔ **Compliant:** the tank meets AS1692
- ✔ **Environmentally protective:** secondarily contained primary diesel tank
- ✔ **Compliant:** manufactured to meet industry and statutory requirements with AS1692 and AS1940
- ✔ **Easy to manoeuvre:** easy to install or relocate
- ✔ **Interstitial monitoring:** capability
- ✔ **Ventilation:** Free-to-air vent
- ✔ **Maximum protection:** a 3-coat industrial painting system (up to 15 years paint life)
- ✔ **Multiple storage uses:** approved for diesel, light fuel oil and lubricants
- ✔ **Earthquake proof:** integral pedestal supports provide seismic anchoring
- ✔ **Low transport costs:** due to light-weight construction
- ✔ **Varied designs and styles:** customised to various cylindrical/rectangular and iTank/container style specifications and stores up to 110,000 litres
- ✔ **Cylindrical design:** available in cylindrical constructions up to 110,000 litres
- ✔ **Rectangular design:** available in rectangular constructions up to 12,000 litres
- ✔ **iTank design:** available in constructions up to 79,000 litres
- ✔ **Warranty:** 5-year warranty

This warranty is only valid providing the tank is installed and maintained in accordance with the industry standards, including de-watering of the tank.
