Description

Ole C2020 Tank Gauging Unit

Part No: **LEGA-0007**

The Ole C2020 is a unique local programmable tank gauge unit that is designed for tanks up to 3 meters high for fuels and up to 2.5 meters high for water based products.

Standard features:

- 🔴 Easy installation: lower sensor into the tank, tighten nut and join 3 wires, plug in and set-up.
- 🔴 A tank fitting is supplied – to fit into a 1” socket or a special 30mm bored hole fitting is available (OJ) providing an IP65 seal.
- 🔴 The hydrostatic tank sensor: comes with 6 meters cable as standard. This can be extended by using an extension kit.
- 🔴 Power requirements: the unit operates from 12 to 24 VDC and 240 vac @50/60hz
- 🔴 Input tank sizes on simple screen: standard tank options include rectangular, horizontal with elliptical

ends.

- 🔴 Continuous reading 1% tank gauge
- 🔴 Bund alarm circuit (Option with float supplied separately)
- 🔴 Output 4-20 mA = 0-100% as standard
- 🔴 Local calibration settings
- 🔴 Push button back light for 1 hour
- 🔴 Flashing backlight when in alarm
- 🔴 IP65 Weatherproof enclosure
