Specification Sheet

Description   *Sapphire Lite Fuel Management Solution 12v (FMS)*

Track every litre of fuel or fluid dispensed with the Sapphire Lite terminal, the next generation of entry level fuel management terminals, utilising contactless technology for secure and controlled fuelling. The Sapphire Lite solution provides cost effective fuel management with vehicle/driver and stock reporting via the secure MCS Connect website. Our MCS Connect website is a money saving business tool providing user friendly reporting and reconciliation.

Standard features:

- Sapphire Lite 12v FMS for mobile FMS solutions
- 10 x virtual tags
- 1 x USB key
- 1 x user guide
- Secure contactless technology to track every litre
- Standard and backup memory with capacity for 4,000+ transactions
- Up to 250 users with contactless vehicle driver tags
- Override switch available for manual fueling
- Centralised reporting
- Cost effective solution for small, medium and large fleet operations
- Track fuel by vehicle and driver
- 2 pump options available
- Stock reconciliation
- Access MCS Connect from any web enabled PC, tablet or smartphone eliminating the requirement for software installed on only one PC.
- Unlimited users have access to the MCS Connect website and complete control of who can access and modify transaction and stock data.

Optional extras available contact Fuelchief directly.
