

## DC100 BASIC

### ONSITE REFUELLING MADE EASY

The **Basic package** has got everything needed for the client who 'just wants to pump fuel' quickly and with no fuss. This package features a proven 230v Italian Piusi bowser pump system with a mechanical display for easy recording of fuel pumped. A no complex, ready-to-use solution, the DC100 Basic package is a great economical choice to start seeing ROI in your business ASAP.

## WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

### Security

The DC100 is a fully compliant double-skinned 10,000L litre tank boasting a very secure pump cabinet to keep your pump and hoses neat and tidy and away from would-be thieves.

### Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel and you're ready for tomorrow.

### Low Maintenance

The innovative design of the DC Series tanks means no internal bracing (no safety risks) and simple condensation catchment and recovery.

### Saves Money

Onsite fuel saves money. Having a depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

### Greater Control

It's never been a better time to get your business costs under control and being in control of your fuel costs makes sense.

### Easy Refuelling

Open the cabinet and lift the nozzle to activate the pump making it very easy to fill up your diesel-powered machinery without delays.

The **DC100** is a compact and unique tank that only takes up a car parking space, which is impressive! Occupying such a small footprint makes the tank a great solution for those operations that have limited room available, yet still need fast access to clean fuel. Below are some of the key features of this fuel tank:

- 🔴 10,450L model with large secure cabinet to house all pumps and equipment
- 🔴 Full height access door with 3-way locking system and anti-levering design for extra security
- 🔴 Cabinet has access hatch through roof to allow safe servicing of tank vent
- 🔴 Hempel C4-High Marine grade paint system
- 🔴 Lockable access door to fuel management terminal
- 🔴 Spill sump in cabinet base to contain spillage
- 🔴 Improved inner tank design with no internal bracing
- 🔴 Sloped floor in inner tank for better water catchment and recovery
- 🔴 Water inspection and suction port housed under lockable hatch
- 🔴 Large access manhole for maintenance and inspection of inner tank
- 🔴 Extra feed and return ports for running auxiliary equipment
- 🔴 Offset fill pipe with Todo Dry-Break coupling for rapid refuelling
- 🔴 Lockable fill point with integrated dipstick
- 🔴 1100 LPM rated and approved overfill prevention valve for safe filling and prevention of accidents
- 🔴 Base of tank sealed in an anti-rust underseal

### Dimensions (mm) (W x L x H)

2310 x 2996 x 2550

### Capacity (Total)

10,450 Litres

### Capacity (SFL)

9,900 Litres

### Design Approval

TNK 15024

### Design Standard

AS1692

### Weight (Empty)

2470 Kg
