

## DC200 BASIC PLUS

### I JUST WANT TO PUMP FUEL - AND FAST

The **Basic Plus package** is for the client who wants extra flow for faster re-fuelling. This package features the Piusi E120 Italian pump system with an impressive flow rate of 100LPM, high-quality Donaldson filter and a mechanical display for easy recording of fuel pumped. This is a high-value yet economical choice for customers and at a price point that is of an advantage.

## WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

### Space Saver

The DC Series of rectangular tanks are far superior when it comes to space requirements. The unique design is much more compact than a traditional round tank taking up less space on valuable real estate.

### Minimise Downtime

The Basic Plus package options allow fast refuelling from site. The Italian made Piusi pump can deliver up to 100 litres per minute, which is approximately three times faster than your standard service station.

### Low Maintenance

The innovative design of the DC Series tanks means no internal bracing (no safety risks) and simple condensation catchment and recovery.

### Saves Money

Onsite fuel saves money. Having a depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

### Stop Fuel Theft

Fuel theft is a big problem nationwide. The 'tri-latch' systems ensures that the full height access door can be securely locked each night preventing would be fuel thieves.

### Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel onsite and you're ready for tomorrow.

The **DC200** is a robust tank that features an improved inner tank wall with no internal bracing. Fully compliant with the EPA requirements for the storage of diesel. If you need a serious tank for a serious workload, this is the tank for you. The DC200 combines strength, security and a small footprint making a very good reason for upgrading your fuel storage situation. Below are some of the key features of this tank:

- 🔧 18,300L Safe Fill model with large secure cabinet to house all pumps and equipment
- 🔧 Full height access door with 3-way locking system and anti-levering design for extra security
- 🔧 Cabinet has access hatch through roof to allow safe servicing of tank vent
- 🔧 Hempel C4-H Marine grade paint system
- 🔧 Lockable access door to fuel management terminal, switching and dry-break coupling
- 🔧 Spill sump in cabinet base to contain spillage or drips
- 🔧 Improved inner tank design with no internal bracing
- 🔧 Sloped floor in inner tank for better water catchment and recovery
- 🔧 Water inspection and suction port housed under lockable hatch
- 🔧 2 x large access manholes for maintenance and inspection of inner tank
- 🔧 Extra feed and return ports for running auxiliary equipment
- 🔧 Lockable fill point with integrated dipstick
- 🔧 Offset fill pipe with Camlock coupling and back check for rapid refueling
- 🔧 1100 LPM rated & approved overfill prevention valve for safe filling and prevention of accidents
- 🔧 Base of tank sealed in an anti-rust underseal

### Dimensions (mm) (W x L x H)

2250 x 5866 x 2450

### Capacity (Total)

20,000 Litres

### Capacity (SFL)

18,300 Litres

### Design Approval

TNK16005

### Design Standard

AS1692

### Weight (Empty)

4450 Kg
