

The **Economy package** is for the client who wants to keep a closer eye on monitoring fuel down to the last litre. This tank package includes high-grade Donaldson filtration and uses the PIUSI PIN operated system to ensure security and monitoring. The user simply enters their PIN and once approved, allows re-fuelling to happen. Along with a storage capacity of 255 transactions, the system can also log vehicle registration, kilometres/miles for fuel usage reports to management. These are easily downloadable through the 'Manager Key'.

WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

Safe Refuelling, Easy & Compliant

The DC200 is a fully compliant double-skinned 20,000 litre tank boasting a very secure pump cabinet to keep your pump and hoses neat and tidy and away from would-be thieves.

Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel and you're ready for tomorrow.

Low Maintenance

The innovative design of the DC Series tanks means no internal bracing (no safety risks) and simple condensation catchment and recovery.

Saves Money

Onsite fuel saves money. Having a depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

Greater Control

It's never been a better time to get your business costs under control and being in control of your fuel costs makes sense.

Stop Fuel Theft

Fuel theft is a big problem nationwide. The 'tri-latch' systems ensures that the full height access door can be securely locked each night preventing would be fuel thieves.

The **DC200** is a robust tank that features an improved inner tank wall with no internal bracing. Fully compliant with the EPA requirements for the storage of diesel. If you need a serious tank for a serious workload, this is the tank for you. The DC200 combines strength, security and a small footprint making a very good reason for upgrading your fuel storage situation. Below are some of the key features of this tank:

- ▼ 18,300L Safe Fill model with large secure cabinet to house all pumps and equipment
- Full height access door with 3-way locking system and anti-levering design for extra security
- Cabinet has access hatch through roof to allow safe servicing of tank vent
- Hempel C4-H Marine grade paint system
- Lockable access door to fuel management terminal, switching and dry-break coupling
- Spill sump in cabinet base to contain spillage or drips
- Improved inner tank design with no internal bracing
- Sloped floor in inner tank for better water catchment and recovery
- Water inspection and suction port housed under lockable hatch
- 2 x large access manholes for maintenance and inspection of inner tank
- Extra feed and return ports for running auxiliary equipment
- Lockable fill point with integrated dipstick
- Offset fill pipe with Camlock coupling and back check for rapid refueling
- 1100 LPM rated & approved overfill prevention valve for safe filling and prevention of accidents
- Base of tank sealed in an anti-rust underseal

Dimensions (mm) (W x L x H)	2250 x 5866 x 2450
Capacity (Total)	20,000 Litres
Capacity (SFL)	18,300 Litres
Design Approval	TNK16005
Design Standard	AS1692
Weight (Empty)	1150 Ka

COMPONENTS:

DELIVERY HOSE OPTIONS:

DC200BUS6M	Fuelchief DC200 Diesel Tank (18,300 SFL) with 100LPM High Flow Pump Kit, Sapphire Lite Fuel Management System, 6m Hose & Auto Nozzle
DC200BUS10M	Fuelchief DC200 Diesel Tank (18,300 SFL) with 100LPM High Flow Pump Kit, Sapphire Lite Fuel Management System, 10m Hose Reel & Auto Nozzle
DC200BUS15M	Fuelchief DC200 Diesel Tank (18,300 SFL) with 100LPM High Flow Pump Kit, Sapphire Lite Fuel Management System, 15m Hose Reel & Auto Nozzle
DC200BUSHT	Fuelchief DC200 Diesel Tank (18,300 SFL) with 100LPM High Flow Pump Kit, Sapphire Lite Fuel Management System, 3m Hose Tower with 7m Hose & Auto Nozzle
