

DC25 BASIC PLUS

I JUST WANT TO PUMP FUEL
- AND FAST

The **Basic Plus package** is for the client who wants extra flow for faster re-fuelling. This package features the Piusi E120 Italian pump system with an impressive flow rate of 100LPM, high-quality Donaldson filtration and a mechanical display for easy recording of fuel pumped. This is a high-value yet economical choice for customers who just want to pump diesel and fast!

WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

Stop Fuel Theft

Fuel theft is a big problem nationwide. The 'tri-latch' systems ensures that the full height access door can be securely locked each night preventing would be fuel thieves.

Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel and you're ready for tomorrow.

Low Maintenance

The innovative design of the DC Series tanks means no internal bracing (no safety risks) and simple condensation catchment and recovery.

Saves Money

Onsite fuel saves money. Having a depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

Minimise Downtime

The Basic Plus options for the DC25 tank offer efficient refuelling. The fast-flow Italian Piusi pump can deliver up to 100 litres per minute, which is approximately three times faster than your standard service station.

Space Saver

The DC25 Basic Plus is so compact, it fits in half a car parking space; ideal for businesses who are after a compact and out of the way solution.

The baby in the DC Series family, the **DC25** is excellent for smaller operations or as a back-up tank for generators and pumps. The DC25 tank also has unique features of 110% secondary containment and full height internal pump cabinet.

This model comes complete with tank vent, contents gauge and dipstick. The sloping floor and water suction port ensures easy water catchment and removal. Below are some of the key features of this tank:

- 🔴 2,500L model with large secure cabinet to house all pumps and equipment
- 🔴 Full height access door with 3-way locking system and anti-theft design for extra security
- 🔴 Hempel C4-High Marine grade paint system
- 🔴 Spill sump in cabinet base to contain spillage
- 🔴 Improved inner tank design with no internal bracing for safe servicing
- 🔴 Sloped floor in inner tank for better water catchment and recovery
- 🔴 Water inspection and suction port housed under lockable hatch
- 🔴 Large access manhole for maintenance and inspection of inner tank
- 🔴 Extra feed and return ports for running auxiliary equipment
- 🔴 Lockable fill point with integrated dipstick
- 🔴 Base of tank sealed in an anti-rust underseal
