

## DC25 ECONOMY

### KEEPING A CLOSER EYE ON FUEL USAGE

The **Economy package** is for the client who wants to keep a closer eye on monitoring fuel down to the last litre. This tank package includes high-grade Donaldson filtration and uses the Piusi PIN operated system to ensure security and monitoring. The user simply enters their PIN and once approved, allows re-fuelling to happen. Along with a storage capacity of 255 transactions, the system can also log vehicle registration and kilometres/miles for fuel usage reports to management. The transactions are easily downloadable through the 'manager key' with the on-board memory storing up to 255 transactions at a time. This is all set-up on the on-board memory that will store up to 255 transactions.

## WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

### Safe Refuelling, Easy & Compliant

The DC25 is a fully compliant double-skinned 2500 litre tank boasting a very secure pump cabinet to keep your pump and hoses neat and tidy.

### Saves Money

A depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

### Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel onsite and you're ready for tomorrow.

### Greater Control

It's never been a better time to get your business costs under control and being in control of your fuel costs makes sense.

### Low Maintenance

The innovative design of the DC Series tanks means no internal bracing (no safety risks) and simple condensation catchment and recovery.

### Stop Fuel Theft

Fuel theft is a big problem nationwide. Our Economy package is the perfect solution to this, restricting access to only those supplied with a user keys or PINs.

The baby in the DC Series is the DC25. Excellent for smaller operations or as a back-up tank for generators and pumps; the DC25 tank also is 110% bunded for secondary containment and comes with a full height internal pump cabinet making refueling easy.

This model comes complete with tank vent, contents gauge and dipstick. The sloping floor and water suction port ensures easy water catchment and removal. Below are some of the key features of this tank:

- ✦ 2,500L model with large secure cabinet to house all pumps and equipment
- ✦ Full height access door with 3-way locking system and anti-theft design for extra security
- ✦ Hempel C4-High Marine grade paint system
- ✦ Spill sump in cabinet base to contain spillage
- ✦ Improved inner tank design with no internal bracing for safe servicing
- ✦ Sloped floor in inner tank for better water catchment and recovery
- ✦ Water inspection and suction port housed under lockable hatch
- ✦ Large access manhole for maintenance and inspection of inner tank
- ✦ Extra feed and return ports for running auxiliary equipment
- ✦ Lockable fill point with integrated dipstick
- ✦ Base of tank sealed in an anti-rust underseal

### Dimensions (mm) (W x L x H)

1160 x 2586 x 1600

### Capacity (Total)

2,500 Litres

### Capacity (SFL)

2,370 Litres

### Design Approval

100111-0016142

### Design Standard

AS1692

### Weight (Empty)

950 Kg
