

## DC25 REMOTE

NO POWER, NO PROBLEM - BRING  
FUELLING TO WHERE THE ACTION IS

The **Remote package**, as the name suggests, is ideal for those clients who do not have a direct 230v power source available. Examples are tanks placed in remote areas such as rural pit-stops, rural businesses or areas where there isn't power readily available. A petrol-powered motor and pump (pictured above) is set up along with a mechanical flow meter.

### WHAT ARE THE BENEFITS FOR YOUR BUSINESS?

#### Safe Refuelling, Easy & Compliant

Fuel theft is a big problem nationwide and our Business package puts a stop to that, restricting access to only those supplied with contactless tags or PINs.

#### Save Time

Onsite fuel will reduce refuelling labour time by 100's of hours per year. No more waiting in queues to refuel or to pay. Just refuel and you're ready for tomorrow.

#### Low Maintenance

The innovative design of the DC series tanks means no internal bracing, (No safety risks) and simple condensation catchment and recovery

#### Saves Money

Onsite fuel saves money. Having a depot tank will save you money on every litre of fuel and prevent unnecessary extra purchases from service stations.

#### Greater Control

It's never been a better time to get your business costs under control and being in control of your fuel costs makes sense

#### Easy Refuelling

Open the cabinet and lift the nozzle to activate the pump making it very easy to fill up your diesel-powered machinery without delays

The **DC25** is excellent for smaller operations or as a back-up tank for generators and pumps. The DC25 tank also has unique features of 110% secondary containment and a full height internal pump cabinet.

This model comes complete with tank vent, contents gauge and dipstick. The sloping floor and water suction port ensures easy water catchment and removal. Below are some of the key features of this tank:

- 🔴 2,500L model with large secure cabinet to house all pumps and equipment
- 🔴 Full height access door with 3-way locking system and anti-theft design for extra security
- 🔴 Hempel C4-High Marine grade paint system
- 🔴 Spill sump in cabinet base to contain spillage
- 🔴 Improved inner tank design with no internal bracing for safe servicing
- 🔴 Sloped floor in inner tank for better water catchment and recovery
- 🔴 Water inspection and suction port housed under lockable hatch
- 🔴 Large access manhole for maintenance and inspection of inner tank
- 🔴 Extra feed and return ports for running auxiliary equipment
- 🔴 Lockable fill point with integrated dipstick
- 🔴 Base of tank sealed in an anti-rust underseal

### Dimensions (mm) (W x L x H)

1160 x 2586 x 1600

### Capacity (Total)

2,500 Litres

### Capacity (SFL)

2,370 Litres

### Design Approval

100111-0016142

### Design Standard

AS1692

### Weight (Empty)

950 Kg

## COMPONENTS:

## DELIVERY HOSE OPTIONS:

4M X 1" HOSE

10M OR 15M 1" HOSE REELS

### DC25BAP6M

Fuelchief DC25 Diesel Tank (2370 SFL) with Honda Motor & Pump, Mechanical Flow Meter and 6m hose & Auto Nozzle

### DC25BAP10H

Fuelchief DC25 Diesel Tank (2370 SFL) with Honda Motor & Pump, Mechanical Flow Meter and 10m Hose Reel & Auto Nozzle

### DC25BAP15H

Fuelchief DC25 Diesel Tank (2370 SFL) with Honda Motor & Pump, Mechanical Flow Meter and 15m Hose Reel & Auto Nozzle
